Logistics Today named Savannah "the most logistics-friendly city in the nation" for three years in a row – recognizing the city as a superior transportation hub. Here are some of the reasons why:

- ◆ Savannah is only a few miles from I-95 and I-16, which provide quick access to Atlanta, only 263 miles away.
- ◆ Savannah is only two hours from the rapidly expanding Florida market, yet has all the financial, business, and permitting advantages of Georgia.
- ◆ Savannah enjoys an East Coast location but is far more westerly than most people realize as Savannah is at the same longitude as Cleveland, OH!
- ◆ Area taxpayers continue to approve Special Purpose Local Option Sales Taxes (SPLOST) for major infrastructure improvements. This puts our area in the enviable position of having infrastructure in place AHEAD of actual demand instead of racing to catch up once demand is in place.
